ROBERT C. HIXON

www.mbpce.com

Robert Hixon has spent his 45-year career ensuring quality and excellence in federal building design and construction. Mr. Hixon began his career as an Engineer Trainee in the U.S. General Services Administration (GSA) new construction program and went on to become Director of the Center for Construction and Project Management for GSA. In this role, he implemented the GSA Construction Excellence Program, which supported the GSA regional offices in achieving construction projects that are completed with high quality, on time, and within budget. He created the GSA Construction Excellence Peer Review Program utilizing private industry to enhance and improve GSA project delivery. Mr. Hixon served as the GSA representative on the Construction Industry Institute (CII) Board of Advisors and the Construction Users Roundtable (CURT) and was the Co-Chair of the Federal Facilities Council (FFC) Committee on Acquisition and Project Management.

Mr. Hixon has served as Project Executive on many high-profile projects to include the U.S. Capitol Visitors Center, along with the Ronald Reagan Building and International Trade Center. Mr. Hixon is a licensed Professional Engineer, Certified Construction Manager, and LEED Accredited Professional. He is a Fellow of the Construction Management Association of America and received the Construction Management Association of America (CMAA) "Person of the Year" award in 2003, the GSA Administrator's "Exceptional Service Award" in 2004, and the Architect of the Capitol's "Distinguished Service Award" in 2007.
