

2015 INDUSTRY DAY SERIES

FACILITIES MAINTENANCE & MANAGEMENT

Elevator Management

What we do

The Elevator Management program ensures all vertical transportation equipment serving the U.S. Department of State Foreign Missions are safe and highly reliable for the U.S. Diplomatic community.

Products and Services:

- Safety
- Training
- Commissioning (Capital and Non-Capital Projects)
- Operations
- Repair and Improvement Projects

Funding

Projects are funded based on a priority scoring of all projects worldwide. Additionally there is funding to perform assessments and surveys, which are used to score projects for future funding.

How to get work with us

All of the elevator installations are advertised through Federal Business Opportunities website and the elevator company is selected by the general contractor. Other projects are openly solicited and available for any qualified elevator company to bid on through the Federal Business Opportunities website.
