

2015 INDUSTRY DAY SERIES

FACILITIES MAINTENANCE & MANAGEMENT

Facility Project Support Program (FPSP)

What we do

FPSP provides design/build services, engineering, project management, technical expertise, and cleared American labor to modify, renovate and repair facility spaces and building systems (mechanical, electrical, architectural), principally for Controlled Access Areas at Embassy and Consulates worldwide.

Products and services:

- Engineering assessments and project surveys
- System inspections and functionality assessments
- Building and equipment modernization, renovations and repairs
- Planning, scheduling and risk management
- Project and construction management
- Project execution coordination for overseas facilities

Funding

Projects are funded based on a priority scoring of all projects worldwide. Additionally there is funding to perform assessments and surveys, which are used to promote projects and score for future funding.

How to get work with us

FPSP executes projects through existing indefinite delivery-indefinite quantity (IDIQ) contracts, or through competitive bidding. This process is managed and executed by the Bureau of Administration office of Logistics Management.
