

2015 INDUSTRY DAY SERIES

FACILITIES MAINTENANCE & MANAGEMENT

International Maintenance Assistance Program (IMAP)

What we do

The IMAP program provides top secret cleared technicians to supplement overseas Facility Management resources, focused primarily in maintenance and repair requirements for controlled access areas.

Products and Services:

- Preventive maintenance
- Infrared thermograph (IR) technicians
- Elevator inspections
- Fire preventive maintenance
- Emergency facilities assistance
- Building Automation System (BAS)
- Generator maintenance and repair

Funding

Under the Maintenance Cost-Sharing (MCS) program all agencies with an overseas presence, including State, contribute to the cost of maintenance based on their overseas facilities. The IMAP program has an allotted \$16M of the MCS funds.

How to get work with us

Individual contracts are advertised through Federal Business Opportunities website.
